SECTION 4: First aid measures

4.1 Description of first aid measures · General information: Take affected persons out into the fresh air. Position and transport stably in side position. · After inhalation: Supply fresh air; consult doctor in case of complaints. If skin irritation continues, consult a doctor. · After skin contact: · After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor. · After swallowing: If symptoms persist consult doctor. · 4.2 Most important symptoms and effects, both acute and delayed Headache Breathing difficulty Profuse sweating Dizziness Dizziness Nausea · Hazards Danger of impaired breathing. · 4.3 Indication of any immediate medical attention and special treatment needed If swallowed, gastric irrigation with added, activated carbon. If swallowed or in case of vomiting, danger of entering the lungs.

SECTION 5: Firefighting measures

<u>5.1 Extinguishing media</u>

5.1 Extinguishing meula	
· Suitable extinguishing agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
5.2 Special hazards arising from	
the substance or mixture	Formation of toxic gases is possible during heating or in case of fire. In case of fire, the following can be released: Carbon monoxide (CO)
	Under certain fire conditions, traces of other toxic gases cannot be excluded.
5.3 Advice for firefighters	, 3
Protective equipment:	Wear self-contained respiratory protective device.
	Do not inhale explosion gases or combustion gases. Wear fully protective suit.
· Additional information	Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and	
emergency procedures	Ensure adequate ventilation
	Use respiratory protective device against the effects of fumes/dust/aerosol. Keep away from ignition sources.
· 6.2 Environmental precautions:	Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system.
	Do not allow to enter sewers/ surface or ground water.
• <u>6.3 Methods and material for</u> containment and cleaning up:	Absorb with liquid-binding material (sand, diatomite, acid binders, universal
	binders, sawdust).

The mentioned permeation times' data were generated and verified with material samples of the recommended protection glove type in the scope of laboratory anylyses of the company KCL GmbH in compliance with EN374. This recommendation refers exclusively to the material safety data sheet referenced product delivered by Akemi and the indicated field of application. In case of product dilution or in case of mixture with different substances or chemicals, and in condition of EN374 deviation the producer of CE-approved protection gloves must be contacted for detailed information (e.g., KCL GmbH, Germany, 36124 Eichenzell, internet: http://www.kcl.de).
	Protective gloves
· Material of gloves	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Fluorocarbon rubber (Viton) The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior
· Penetration time of glove material	to the application. Value for the permeation: Level ≤ 6 ; 480 min The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
 For the permanent contact gloves made of the following materials are suitable: 	Fluorocarbon rubber (Viton) Vitoject (KCL, Art_No. 890) Butyl rubber, BR
· As protection from splashes gloves
