Properties:	AKEMI® Algae and Moss Remover LONGLIFE is a self-acting and water-soluble cleaning concentrate based on surfactants with auxiliary substances. The product is free of chlorine, acid, lyes and solvents.
Application Area:	AKEMI® Algae and Moss Remover LONGLIFE durably removes organic films caused by plants on stone tiles, façades, floors, staircases, roofs and walls made of natural and artificial stone such as marble, granite, Solnhofen slabs, quartzite and concrete ashlar, ceramic, plastic and wood. The effect lasts for up to one year and is therefore perfectly suited for the preventive treatment against green and slippery films.
Instructions for Use:	<ol style="list-style-type: none">1. Before the treatment remove deep staining mechanically or intensively clean with AKEMI® Algae and Moss Remover POWER.2. Dilute concentrate with water in a ratio of 1:10 to 1:50.3. Apply the dilution with a watering can or a spraying device (e.g. garden pressure spray) and let it work; ideal working temperature 10 - 25°C.4. Protect treated surfaces from rain for at least 4 hours.5. Remaining films are washed off by rainwater or by a water jet after some days.
Special Notes:	<ul style="list-style-type: none">- Use biocides safely.- There is normally no aggressiveness towards garden plants (roses, groves, bushes), however, due to the vast variety of plants a terminal declaration cannot be made. Therefore, if possible do not allow contact with plants, otherwise rinse immediately with water.- Do not refill used material into storing containers.- Protect from direct sunlight and heat.- Special regulation for Switzerland: AKEMI® Algae and Moss Remover LONGLIFE can be used indoors without restriction, outdoors only on facades.- For proper waste disposal, the container must be completely emptied.- Recycling in accordance with the guidelines of EU Decision 97/129 EC on the Packaging Directive 94/62/EC.
Technical Data:	Coverage: approx. 50 m ² /liter (if diluted in a ratio of 1:10) Colour: clear, colourless Density: approx. 1.00 g/cm ³ pH value: approx. 7 Active ingredients: quaternary ammonium compounds
Storage:	If stored in dry and cool condition (5-25°C/41-77°F) in its closed original container at least 24 months from production.
Health & Safety:	Read Safety Data Sheet before handling or using this product.
