

Technical Data Sheet

Page 1 of 1

Properties:	AKEMI® Quartz Intensive Cleaner is an acid-free, ready-to-use cleaner spray made of non-ionic surfactants, auxiliary materials, odoriferous substances and solvents. The product is free from phosphates and bases; the surfactants contained are biodegradable in correspondence with the legal regulations for surfactants.
Application Area:	AKEMI® Quartz Intensive Cleaner is suited for a rapid and thorough cleaning of kitchen working tables, counter tops and other surfaces made of quartz-based stone (Engineered Stone such as Caesarstone, Cambria, Silestone, Zodiaq, etc.).
Instructions for Use:	<ol style="list-style-type: none">1. Spray AKEMI® Quartz Intensive Cleaner evenly on the surface to be treated.2. Spread the product with a damp cloth and allow it to work for a short while.3. Afterwards use a damp cloth to remove the dirt. Finish by rubbing the surface with a clean and lint-free cloth until the surface is free of streaks.4. For stubborn dirt, repeat the procedure again. If necessary scrub the surface with a brush.
Special Notes:	<ul style="list-style-type: none">- Do not apply AKEMI® Quartz Intensive Cleaner on synthetic materials which are not resistant to solvents or rubber. If in doubt, test on an inconspicuous area.- A surplus of the product causes blooming and spotting. This can be removed with water.- For adequate waste disposal container must be completely emptied.
Technical Data:	Colour: colourless Density: approx. 1.0 g/cm ³ pH value: approx. 10
Storage:	2 years if stored in cool place free from frost in its tightly closed original container.
Health & Safety:	Read Material Safety Data Sheet before handling or using this product.
Important Notice:	The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information – as well as other oral or written technical advises – must be considered as non-binding hints. The user is obliged in each particular case to conduct performance tests, including but not limited to trials of the product, in an inconspicuous area or fabrication of a sample piece.
